Partnership Memorandum of Understanding

Project: LUMA Smart Home — smart-home integration and service company, Southwest Florida
Document: trial-period memorandum — a statement of intent, not a definitive operating agreement
Effective date: ____ ______ 2026 · **Trial period ends:** 31 December 2026

1. Parties

Partner A — Artsiom Ishchuk (Managing Partner), residing in ______________, FL.
Partner B — Anatoliy Shiva, residing in ______________, ____ .
Contact details are in Annex D.

2. Purpose and territory

The Partners join efforts to launch and test a residential technology business (the "Project") under the **LUMA Smart Home** brand, held for now by **Tegra-Media LLC**: design, supply, installation, programming, commissioning and service of lighting control, motorized shading, networking, surveillance, audio/video and home automation, plus recurring **LUMA Care** memberships. The trial includes building a joint **Accent Florida Home** department named **Accent Smart Home** (D.9).

Primary territory: **Sarasota County, Florida**; adjacent: Manatee, Charlotte, DeSoto, Lee, Collier; outside it, only by mutual agreement. Target client: owners of homes and condominiums from **$____** in value, and the builders, architects and designers serving them.

3. Trial period and reviews

This Memorandum covers a deliberate trial from the effective date **through 31 December 2026**, to test demand, unit economics and the working relationship **at limited cash risk**. Partner A contributes primarily time as Managing Partner; Partner B contributes limited time, contacts, client introductions and start-up finance.

Rhythm: Partner A **initiates** every operating discussion; Partner B joins. Weekly call of ____ minutes on ____ against the Annex C.5 scorecard and the **weekly KPI list**: hit the week's targets, or write where they slipped and what to do next to move the Project. Partner A issues a written **monthly brochure** by the ____ of each month. Final review by **15 December 2026**: (a) sign a definitive Operating Agreement of a Florida LLC; (b) extend the trial by written addendum; (c) end the cooperation under §17.

4. Participation shares

Participant	Share	Applies to
Artsiom Ishchuk (A)	____ %	Profit, losses (§8), membership interest in the LLC
Anatoliy Shiva (B)	____ %	Same
Reserve pool — future partner or key hire	____ %	Unissued; allocated only under §13

Work split during the trial is **80 / 20** (A / B). The percentages above are equity and profit; the Partners fill them in, and they need not match the work split. They are **provisional** until the final review against Annex B; failing agreement, they stand. Not transferable without written consent. A share is personal: a spouse, heir or creditor gets only its economic value (Annex B.5), never votes, and each Partner has first refusal.

5. Areas of responsibility

The model is **asymmetric**. Two roles: **Artsiom Ishchuk** is **Managing Partner / CDO** (~80%) — commercial and delivery owner; he initiates processes, website, funnels, packages, dealers, engineers, visits, closing, delivery, books, tax, databases, first team and strategy. **Anatoliy Shiva** (~20%) supports the Project; it is **not his main focus** — his primary business is **Accent Florida Home**, which he continues to develop. He may still sell, introduce, advertise indirectly, sit in strategy, fund the start and hold the low-voltage licence, on a *sufficient* basis, not an 8–10 hour daily job. Day-to-day is the Lead's; detail: Annex A.

#	Area	Lead	Support
1	Sales — quoting, closing; B may originate his own deals	A	B — sufficient: connect, introduce, offer
2	Trade channel — builders, architects, designers, realtors	A	B — Accent + his own intros
3	Design and packages — system design, price book, package solutions	A	B — strategy on packages
4	Field delivery — subcontractors, scheduling, QA, warranty	A	—
5	Procurement — dealer accounts, purchase orders, stock	A	—
6	Marketing — website, aggregators (Angi, Thumbtack, Houzz, Yelp), Meta test after packages	A	B — indirect advertising
7	Finance and admin — bookkeeping via accountant, invoicing, tax, insurance	A	B — start-up finance
8	Licensing and compliance — low-voltage licence, permits, subcontractor files	B	A
9	Client care — support desk, service visits, LUMA Care renewals	A	—
10	Strategy — direction, packages, licensing, contacts, specialists	A	B — sits in, does not initiate

6. Time commitment

Partner A: **at least 25 hours per week** in the first 4 weeks, then a written review of whether this focus is producing results; thereafter ____ **hours per week** as agreed at that review. Partner B: **6 hours per week**, on a sufficient basis — connect, introduce, direct, offer — **not** an 8–10 hour daily sales job. Partner A initiates every discussion that must be fixed in this interaction; Partner B replies within ____ **business hours** and joins a key meeting on ____ **days'** notice. A new client enquiry is answered within ____ **hours**. Absence over ____ days is announced ____ days ahead with handover. Hours are logged weekly per Annex B.

7. Money at the start (deliberately minimal)

Partner A is **not obliged to put cash**. Partner B's cash into the Project is one **B Facility of not more than $10,000 outstanding**. Target operating budget: **$____ per month**. Any single expense above **$____**, or a new recurring subscription above **$____ per month**, needs written approval of both (email or messenger suffices).

Project hardware, freight and subcontract labour are funded from **client deposits, not partner capital**: standard terms are ____ **%** on signature before equipment is ordered, ____ **%** at rough-in, balance at commissioning. Partner B funds the launch from the B Facility, up to **$10,000**. The envelope is a **narrow start list**, not scaled ads: (1) AI tools — packages and tokens; (2) the website; (3) aggregator lead-gen — Angi, Thumbtack, Houzz, Yelp and similar; (4) **test** Meta ads, **only after** start packages are ready for a targeted result; (5) videographers and photographers at the start; (6) courses, training and certificates (e.g. SBDC forum, set-up for public-tender access). If the funnel is not converting, the Partners **do not scale paid marketing and do not burn the budget**.

The B Facility may be used as start-up investment or as a credit line for bills, invoices and services, never more than **$10,000 outstanding**, at **6% simple per annum**, repaid under §9. Partner A initiates each spend; Partner B releases funds. Personal costs are not reimbursable except the §9 personal-bill advance (max $7,000, **not** a draw on this facility) and items in Annex D.5.

8. Losses and additional funding

The Project **does not accumulate debt beyond the B Facility**. Losses are shared per §4, but Partner B's **cash obligation during the trial is capped at $10,000 outstanding**, and Partner A has no cash obligation. Neither Partner guarantees the other's obligations or may create debt binding on the other (§12).

The test is whether the Project has a right to live: Anatoliy helps with **licences and clients**, Artsiom finds **contractors**. If the sales funnel is not working and clients are not coming, the Partners **do not push main marketing and do not burn the budget**. Cash above the $10,000 B Facility is **not** taken on: the plan is scaled down. Conversion of cash into share at **$____ per 1 %** (Annex B.4) is optional and only by written election; it is not the operating mode.

Bad debt, warranty rework and re-doing defective work are **Project costs** shared per §4, except gross negligence or unapproved deviation from scope, which is charged to that Partner's contribution account.

9. Revenue, profit and distributions

Cash is applied in this order: (1) **direct project costs** — equipment, freight, subcontractors, permits, sales tax; (2) **Artsiom's living draw** from the first surplus after (1), agreed in writing and logged in B.2; (3) **B Facility repayment** — from remaining margin, **10% of outstanding principal** plus **6% simple per annum**, until zero; (4) **sales commission** on deals that are not a B origination bonus — ____ % of project gross profit to whoever sourced and closed; (5) **operating expenses**; (6) **cash reserve** to **$ ____** (about ____ months of opex); (7) **profit** per §4, ____ (monthly / quarterly).

B origination bonus. If B brings the client, the contract is signed and B accompanies: **5% of signed contract value** from that project's margin, **outside §4 shares** (example: $10,000 contract, $3,000 margin → **$500**). Does not stack with (4) on the same deal. **B's counter-proposal (if any):** ____ % of ____ (contract / margin): ______________ .

Personal-bill advance. On Artsiom's request, Anatoliy may cover Artsiom's personal bills **1–2 times**, **max $7,000**. Repayable (B.2), not a gift. If unpaid in cash, Artsiom **works it off at Accent Florida Home** in a written format until zero.

During the trial the Partners intend to reinvest at least _____ **%** of profit after the living draw. A Partner doing billable field or programming work is paid **$_____ per hour** as a direct project cost at the rates in Annex A.3, separately from profit share. Every project is quoted from the shared price book at a **minimum gross margin of _____ %**; going below that needs both Partners' consent.

10. Goals for the trial

To 31 December 2026: revenue **$_____**; signed projects _____; average project value **$_____**; realized gross margin _____ **%**; LUMA Care memberships _____; qualified leads per month _____; year-end pipeline **$_____**; signed trade partners _____; photographed reference projects _____. Long-term intent: _____ (grow and hold / build to sell / income business); the 1–5-year picture of each Partner is recorded in Annex D.7.

Each Partner keeps at least one **named potential client** at a stated check (working figure **$55,000** unless another is written in Annex D.8). **Accent Florida Home / Accent Smart Home** is the related channel (Annex D.9), not a lead. Go / no-go also weighs: Partner A kept the §6 hours and initiation, Partner B connected 6 hours a week on a sufficient basis, and the weekly KPI list was either hit or the gap was written with a next action. Detail: Annex C.

11. Go-to-market and lead rules

Channel priority (1 = first): Accent / Partner B client and trade introductions _____ ; builders and remodelers _____ ; designers and architects _____ ; Angi, Thumbtack, Houzz, Yelp and similar aggregators _____ ; website and Google Business Profile _____ ; **test** Meta ads (only after start packages are ready) _____ ; manufacturer lead programs _____ .

Rules from day one: Partner B may originate sales; every lead is in the shared CRM within _____ **hours** with its source. First to log it owns it unless reassigned; **no Project client, lead or vendor is worked outside the pipeline** (§15); one price book. If B originated the client, the contract is signed and B accompanies — the §9 B origination bonus. Passive referrals from a Partner's other business without B accompanying earn _____ **%** of the deal's gross profit.

Accent Smart Home. Joint Accent Florida Home department — on Accent's website, services, handouts, brochures and all client- and team-facing materials. **LUMA** is contractor to Accent's direct client, keeps its margin (including with subcontractors), shows Accent inbound costs and the invoice to Accent; Accent's team does not shop the same services elsewhere (D.9, §15).

12. Decisions and reserved matters

Day-to-day decisions belong to the area Lead (§5). **Written consent of both Partners** is required for: admitting a third partner, investor or equity hire; any borrowing, lease, personal guarantee or client financing; any expense above **$_____** or contract with liability above **$_____**; the first full-time hire, and any hire of a relative of either Partner; pricing below the §9 margin floor; changes to brand, entity name, domain or website ownership; any profit distribution; entering territory outside §2; manufacturer exclusivity; bidding or signing **state, county or other public work** through **Accent Florida Home** or any other entity.

Deadlock: seven days' cool-off, then one further meeting with a written agenda, then a mutually chosen mediator in Sarasota County, then §17 — and no unilateral action on a reserved matter while a deadlock is open.

13. Admitting a third partner or investor

Only by **unanimous written consent**, documented in an addendum. Default terms: the new share comes first from the reserve pool in §4, then from equal relative dilution of both Partners; the entrant brings defined cash and/or a role with measurable deliverables; equity vests over _____ **months** with a _____**-month** cliff and reverts if the role is not performed; the entry price is the greater of Annex B.5 or an agreed valuation; the entrant signs the same terms as §15. The same applies to equity hires, revenue-share referral partners and outside investors. Neither Partner may promise equity, revenue share or a title to anyone before that consent exists.

14. Operational improvements and growth

Everything built during the trial — checklists, CRM setup, price book, proposal and contract templates, commissioning procedures, training material, supplier terms — is a **Project asset, not the author's private property**, and must be documented well enough for either Partner to run it. The Partners hold an improvement review every _____ (month / quarter): what to standardize, automate, outsource or hire for, and which metric each change should move. A documented improvement with a measured effect may be credited to its author in Annex B.6. Later growth steps (second crew, showroom, commercial work, more counties, own licence) are planned but not committed here.

15. Confidentiality, exclusivity, non-circumvention *(binding)*

During the trial and for _____ **months** afterwards, each Partner agrees that within the territory of §2 they will not pursue smart-home integration or service business outside the Project — directly, through another entity, as an employee or as a contractor to a competitor — without the other's written consent; will not solicit, quote or serve any Project client, lead, vendor, distributor or subcontractor introduced through the Project other than through the Project; will not solicit Project personnel; and will keep confidential all client data, pricing, vendor terms, project documentation and this Memorandum. Partner B will cause **Accent Florida Home** and its team not to shop other companies for the same smart-home services in that territory (D.9). Pre-existing activities disclosed in Annex D.2 are excluded.

16. Brand, intellectual property and data *(binding)*

The **LUMA Smart Home** marks are held, **for residential work at least during the trial**, by **Tegra-Media LLC** and licensed to the Project (D.10). The domain, website, photography, price book, templates, CRM and client data are Project assets and do not move to a new LLC unless both agree in writing. Intellectual property owned by a Partner before the effective date stays theirs and is licensed to the Project free of charge while the cooperation lasts (Annex D.3). If the trial ends, Project assets stay with the Partner designated in Annex D.4 and the other is compensated for their §4 share of agreed value; client data is then used only as the client consents and the law allows.

17. Ending the trial

Either Partner may end the cooperation on _____ **days' written notice**; it also ends on 31 December 2026 unless extended. If a Partner dies or is incapacitated beyond _____ days, the cooperation ends here too, with the share paid out to the Partner or their heirs per Annex B.5; a material breach of §11, §12, §15 or §16, uncured _____ days after written notice, lets the other Partner end it immediately. Then: projects in progress are completed, or transferred with the client's written consent; receivables are collected and payables settled; the working fund, tools and equipment are divided per §4 after all Project obligations; the departing Partner stays bound by §15 and §16; a buy-out of a share is valued per Annex B.5. Protecting the client takes precedence over the Partners' claims against each other.

18. Legal form, licensing and compliance

For **residential** work during the trial the Partners operate through **Tegra-Media LLC** as the LUMA Smart Home brand holder (Annex D.10). A dedicated Florida LLC may be formed later if the trial converts. Bookkeeping from day one, general liability insurance (plus workers' comp where required), sales-tax registration, and written subcontractor agreements with W-9s and insurance certificates apply in either case.

Until the entity, insurance and the applicable **Florida licensing route** are in place, no Partner signs client contracts in the Project's name, and any work requiring a low-voltage, alarm-system or electrical licence is performed only by a licensed contractor of record engaged in writing. The intended route is the **low-voltage licence through Partner B**; securing it — or engaging a licensed contractor of record until then — is an Annex C.1 milestone owned by Partner B, due _____ . **Accent Smart Home** jobs and, if lawful, **state and public work** may use **Accent Florida Home** as the face to the client, with **LUMA Smart Home** as contractor (D.9); use and any fee need both Partners' consent (§12). No Partner may hold themselves out as licensed before the Project or Accent Florida Home is. Each Partner is responsible for their own taxes and work authorization, and each always has unrestricted access to the books, the bank account and all Project documents.

19. Status of this document; governing law; language

Except for §15, §16 and this §19, this Memorandum is a **statement of intent**: it is not intended to create a binding contract, a general partnership, a joint venture, employment, or authority for either Partner to bind the other. It is not legal, tax, accounting or insurance advice; the definitive Operating Agreement will be reviewed by a Florida attorney and a CPA and will supersede this Memorandum.

Changes to this Memorandum are valid only in writing signed by both Partners. Governing law: the State of Florida; venue Sarasota County. Executed in English and Russian; both texts carry the same meaning and, if they differ, the __________ **text prevails**.

20. Signatures

Artsiom Ishchuk	**Anatoliy Shiva**
Name: Artsiom Ishchuk	Name: Anatoliy Shiva
Signature: ____________________	Signature: ____________________
Date: ________________	Date: ________________

Annexes forming part of this Memorandum: **A** responsibility matrix and rates · **B** contribution ledger and valuation · **C** 90-day plan and KPIs · **D** disclosures and asset register.

Annex A — Responsibility matrix, escalation and rates

A.1 Task-level allocation. For each area of §5, list the recurring tasks, the owner, the cadence, and the tool used.

Area (§5)	Recurring task	Owner	Cadence	Tool / where it lives
1 Sales	First call, needs discovery, site walk	A	per lead	______
1 Sales	Proposal build and presentation	A	per opportunity	______
2 Trade channel	Builder / designer outreach; Accent introductions	A / B	weekly	______
3 Design	System design, equipment list, price book upkeep	A	per project	______
3 Design	Programming and commissioning	A	per project	______
4 Delivery	Subcontractor sourcing and scheduling	A	weekly	______
4 Delivery	Site QA, punch list, client walkthrough	A	per project	______
5 Procurement	Dealer accounts, POs, RMA, stock	A	weekly	______
6 Marketing	Website; Angi, Thumbtack, Houzz, Yelp; Meta test after packages	A	weekly	______
7 Finance	Invoicing, collections, bookkeeping, reporting	A	weekly / monthly	______
7 Finance	B Facility draws: AI tools, website, aggregators, photo/video, training	B	first 1–2 qtrs	______
8 Compliance	Low-voltage licence, permits, insurance, W-9 / COI	B	monthly	______
9 Client care	Support intake, service visits, LUMA Care renewals	A	ongoing	______

A.2 Escalation. Client complaint → area Lead within ______ hours → both Partners within ______ hours if unresolved or if the amount at risk exceeds $______. Anything touching safety, licensing, or a written client complaint goes to both Partners immediately.

A.3 Internal billable rates (charged to projects as direct cost, not profit share): design / engineering $______ /h · programming and commissioning $______ /h · field labour $ ______ /h · service call, member $______ /h · service call, non-member $______ /h · travel beyond ______ miles $______ /h or $______ /mile. Rates reviewed at the monthly review.

A.4 Standard commercial terms (fill in once, then use everywhere): deposit ______ % · progress payment ______ % · final ______ % · payment terms net ______ · change-order minimum $______ · labour warranty ______ months · manufacturer warranty pass-through ______ · minimum gross margin ______ %.

Annex B — Contribution ledger, share confirmation and valuation

B.1 Time log (weekly, shared sheet — the primary contribution record during the trial).

Week ending	Partner A hours	Partner B hours	Main work delivered	Notes
________	________	________	________	________

B.2 Cash log (every contribution and reimbursable expense, with receipt).

Date	Partner	Amount	Purpose	Type: capital / B Facility draw / B Facility repayment / living draw / personal-bill advance	Approved by
________	________	$________	________	________	________

B.2a Personal-bill advance (§9). Anatoliy may cover Artsiom's personal bills **1–2 times**, **not more than $7,000 in total**. Logged here as a repayable advance, not a gift. Repaid from later living draws or profit. If Artsiom cannot repay in cash, he works the balance off at **Accent Florida Home** in a written format both agree before the work starts (hours × rate, signed off by Anatoliy) until the balance is zero. A CPA classifies the advance as a loan or as compensation. This advance is **not** a draw on the B Facility.

B.2b B Facility (§7–§9). Cap: **$10,000 outstanding**. Interest: **6% simple per annum** on the outstanding balance. Two uses, same cap: (i) start-up investment; (ii) revolving credit the Project may draw for bills, invoices and other services. From each new project's remaining margin after §9(1)–(2), repay **10% of the outstanding principal** plus accrued interest, until zero. If that project's remaining margin is short, take what there is. Logged here as draw / repayment.

B.3 Share confirmation at the final review. Inputs considered, in this order: (1) hours logged in B.1 against the commitment in §6; (2) cash in B.2 net of repayments; (3) delivered results against the KPIs in §10 and the milestones in Annex C; (4) ownership of a critical function that the Project cannot operate without. Any adjustment to §4 requires both signatures and is recorded as an addendum. Default if the Partners cannot agree on an adjustment: the shares in §4 stand unchanged.

B.4 Conversion of cash into share (optional, §8): **$_____ per 1 %**, valid until _____ , applying only to cash actually received in the B Facility and only up to a maximum of _____ % transferred in total. Default during the trial is repayment at 6% simple, not conversion.

B.5 Valuation method for a buy-out or a third-party entry (§13, §17). Agreed default: the greater of (a) _____ **×** trailing twelve-month revenue plus _____ **×** annualized LUMA Care recurring revenue, minus debt, plus working capital; or (b) _____ **×** trailing twelve-month owner earnings (profit before distributions, normalized for market-rate labour); or (c) net asset value. Payment terms for a buy-out: _____ % at closing, balance over _____ months at _____ % interest. If the Partners disagree, each names an appraiser and the two appraisers name a third, whose determination is used; cost shared per §4.

B.6 Improvement credits (§14). A documented improvement with a measured effect may be credited here — description, metric moved, measured effect, credit agreed by both Partners.

Annex C — 90-day action plan and KPI dashboard

C.1 Days 1–30 — foundation. Owner and due date for each: Tegra-Media LLC confirmed as residential brand vehicle (A) ____ ; business bank account and bookkeeping / CPA opened (A) ____ ; general liability quoted and bound (A) ____ ; **low-voltage licence route started (B)** ____ ; B Facility of $10,000 agreed in writing (B) ____ ; **Accent Smart Home** on Accent website, services, handouts, brochures and team brief (B) ____ ; sales-tax registration (A) ____ ; shared drive, CRM and calendar live (A) ____ ; price book v1 (A) ____ ; proposal and contract templates (A) ____ ; dealer / distributor applications (Lutron, Ubiquiti, Somfy, Sonos) (A) ____ ; website, landings and Google Business Profile live (A) ____ ; one written subcontractor agreement plus W-9 and COI (A) ____ .

C.2 Days 31–60 — first demand. Accent / Partner B introductions started (B); aggregator lead-gen live — Angi, Thumbtack, Houzz, Yelp — from the B Facility (§7) (A, released by B); **test** Meta ads only after start packages are ready; target lists: ____ builders, ____ designers/architects; first ____ proposals; one pilot signed; demo kit for $ ____ or less; LUMA Care offer priced; photo/video of the first reference shot.

C.3 Days 61–90 — proof and repeatability. Pilot delivered, commissioned and photographed; client walkthrough and written testimonial; unit economics compared to plan (quoted vs realized gross margin, hours per project vs estimate); the delivery process written down as a checklist; ____ signed trade partners; pipeline of $____ ; decision documented on what to standardize, automate, outsource or hire next (§14).

C.4 Monthly brochure — Partner A writes it by the date in §3. One number per cell, plan vs actual. This is the document the Partners review together each month.

Metric	Plan	Aug	Sep	Oct	Nov	Dec
Qualified leads (all / from B / aggregators / Meta test)	____					
Proposals issued / $ value	____					
Projects signed / $ value	____					
Revenue recognized	____					
Realized gross margin %	____					
Intros / directs / offers by B	____					
LUMA Care members / MRR	____					
Cash in working fund / B Facility left of $10,000	____					
Partner A / B hours logged	____					

C.5 Weekly KPI scorecard — Partner A sends it before the weekly call; the Partners check it on the call. In the first 14 days they write a short **weekly KPI list**. Each week they either **hit the list** or write **where they slipped and what to do next** to move the Project. Same numbers as C.4, plus: site visits this week ____ ; named prospects in D.8 (moved / stuck); one strategy item (direction, packages, licensing, contacts or specialists); one blocker each (A / B); hours vs §6 (A ≥25 h/week in weeks 1–4, then as agreed; B 6 h/week); what Partner A will initiate next week; where Partner B will connect, introduce, direct or offer.

Annex D — Disclosures, contacts and asset register

D.1 Contacts. Partner A: phone ____ · email ____ · messenger ____ . Partner B: phone ____ · email ____ · messenger ____ . Preferred channel for decisions that must be in writing: ____ . Shared inboxes and accounts, with who holds credentials: ____ .

D.2 Pre-existing activities and conflicts (excluded from §15): Partner A — **Tegra-Media LLC** (residential brand holder for LUMA Smart Home, Annex D.10) ______________ ; Partner B — **Accent Florida Home** (construction, remodeling, licences and state-work history, Florida), which remains his primary occupation. Each Partner confirms nothing here prevents them from participating in the Project, including any current employment, non-compete, visa or work-authorization limitation: Partner A ____ , Partner B ____ .

D.3 Pre-existing intellectual property licensed to the Project (owner keeps ownership; free licence while cooperating): ______________ .

D.4 Asset register and custody. For each asset — owner of record during the trial, and who keeps it if the trial ends: brand and marks ____ ; domain and DNS ____ ; website repository and hosting ____ ; Google Business Profile ____ ; CRM and client database ____ ; phone number ____ ; email domain ____ ; social accounts ____ ; price book and templates ____ ; photography and case-study material ____ ; demo kit and tools ____ ; vendor and dealer accounts ____ ; entity documents and tax filings ____ .

D.5 Reimbursable personal costs, if any (§7): ______________ , capped at $____ per month per Partner.

D.6 Open items to resolve before the definitive agreement. ______________ .

D.7 The 1–5-year picture, in each Partner's own words (§10). Partner A: ______________ . Partner B: ______________ .

D.8 Named potential clients (§10). Each Partner holds at least one live name at a stated check. Working figure unless overwritten: **$55,000**.

Named prospect	Owner	Target check	Status / next step
First Accent Florida Home–channel / public job	________	$55,000	Scope as smart home / smart rooms
______________	A	$____	______________
______________	B	$____	______________

D.9 Accent Florida Home / Accent Smart Home (§2, §11, §15, §18). Legal owner / who controls it: ____ . Licences, contractor numbers and state / vendor codes on file: ____ . Joint department name: **Accent Smart Home**. Partner B puts it on Accent's website, services, handouts, brochures and all client- and team-facing materials as a jointly developed Project Smart Home story. On Accent Smart Home jobs, **LUMA Smart Home** is contractor to Accent's direct client; LUMA keeps its own margin even when using third-party subcontractors and shows Accent (i) inbound subcontractor costs and (ii) the amount invoiced to Accent Florida Home. Accent Florida Home and its team do not shop other companies for the same smart-home services. Also used, if lawful, for Florida **state, county and other public** work where Accent's history and codes help qualify. Accent Florida Home is not Project equity unless both agree in writing. Fee to Accent Florida Home on work run through it: ____ % of ____ (or $____ / job). Review with a Florida attorney before the first public bid.

D.10 Tegra-Media LLC (§2, §16, §18). Brand holder for **LUMA Smart Home** on **residential** work, at least during the trial. Legal owner / who controls it: Artsiom Ishchuk / ____ . State of formation: ____ . The brand is licensed to the Project free of charge while this Memorandum lasts; Tegra-Media is not merged into a new LLC and is not Project equity unless both agree in writing. Accent-facing work and public / state work stay under Accent Florida Home / **Accent Smart Home** (D.9).

This Memorandum is a working document for the Partners' own use during a trial period. It is not legal, tax or accounting advice. Have a Florida attorney and a CPA review the definitive Operating Agreement, the client contract template, and the subcontractor agreements before relying on them commercially.
